Note—Illustrated articles are marked with an (*) asterisk.

ARTICLES

Afrika, Trials of motorship..... *517
Alabama Dry Dock & Shipbuilding Company build coal barges for Panama canal *172
Alabama Dry Dock & Shipbuilding Company, Map of Pinto Island repair plant *217
American Bureau Surveyors at foreign ports 965
American merchant marine: Observations here and there "Old Scotch."..... 481
American progress in marine refrigeration. J. F. Farish 169
American Society of Mechanical Engineers, Annual meeting of..... 767
Amstelland, British-built cargo steamer.. 811
Analysis of the Isherwood system. John Flodin *129, 205
Analyzer, flue gas. A. Pohlman..... *191
Anderson, Ernest H. B.: Propelling machinery of the Leviathan..... *51
Anderson, John: Notes on the dimensions of cargo steamers *497
Anglo-American standards for rolled steel shapes 478
Ano, C.: Twin screw cargo ship Eastern Merchant *547
Anson S. Brooks, converted into a lumber carrier *398
Anti-noise marine telephone..... *607
Antwerp, geared turbine passenger steamer. F. C. Coleman..... *625
Aquitania, Cunard liner, converted to an oil burner 635
Aquitania, Oil burning installation of the 817
Arc welder, automatic. General Electric Company *351
Arc welding applied to ship construction and repair. J. O. Smith..... 47
Arcturus type cargo vessel..... 996
Arnold, H. A.: Launching 45-ton motor tug from deck of transport..... *506
Asano shipyard, Twin screw cargo ship Eastern Merchant. C. Ano..... *547
Asbury Park in service on Pacific coast. H. L. des Anges..... *713
Astor, Vincent, Diesel motor yacht for.. *965
Astoria, Shipping facilities of..... *104
Attachment for hydraulic systems..... *516
Australia, largest shipyard in. John O'Toole *444
Australian federal fleet construction..... *12
Australian steamer, Dromana..... *10
Australian Naval Dockyard, Steamship Eudunda launched at..... *550
Australian shipbuilding *174
Australian standard steamer, Trials of.. *480
Automatic arc welder. General Electric Co. *351
Automobile ferry with electric drive. Renwick Z. Dickie..... *556
Auxiliary machinery in fabricated ships. P. M. Robinson..... *83
Auxiliary schooner yacht Guinivere.... *409
Auxiliary schooner Zilia..... *402
Auxiliary schooners, Diesel engined. C. E. Spinnler *402
Auxiliaries, electrically-driven. Rex W. Wadman *161
Avalon, ship surgeons operate on..... *394

Babcock & Wilcox boiler..... *18
Badenhauser boiler setting..... *23
Ballin watertube boiler.....*..... *27
Balsa ice chest for deck installation..... *140
Baltimore Dry Docks & Shipbuilding Company 6,300-ton freighter..... *885
Barclay, Curle & Co., cargo and passenger steamer Mashobra..... 823
Barge canal, Warrior river, development of. Major Robert S. Thomas....*193, 372
Barges, coal, 7,500-ton..... *172
Barges for New York barge canal, 150-foot. Cox & Stevens..... *401
Barges for Warrior river section. Major Robert S. Thomas..... *193
Barges, modern steel cargo (photographs) *66
Barges, twin screw tunnel..... 198
Barkentine-rigged sailing vessel Forest Pride *554
Bashore, E. G.: Preventing corrosion in marine boilers 421
Bates, James L.: United States battleship Tennessee *642
Battle cruiser Hood, British (photographs) *192
Battle cruiser Hood. Sir Eustace d'Eyncourt *492
Battleship dry docked upside down, Italian *126
Battleship Maryland, United States (photograph) 455
Battleship Mississippi, U. S. (photograph) *84
Battleship Tennessee, U. S. (photograph) *42
Battleship Tennessee, 32,300 tons. James L. Bates *642
Battleship Virginia, U. S. (photograph).. *64
Battleships, Swedish, propelling machinery for *743
Beam, relation of, to height of metacenter. F. M. Hiatt..... *569
Beardmore & Co., Ltd., William: Cunard liner Tyrrhenia *645
Belgic to enter Belgian passenger service *909
Bethlehem Fore River shipyard, welding at *65
Bethlehem Shipbuilding Corporation: An unusual propeller job..... *491
Bethlehem Shipbuilding Corporation, docking facilities at San Francisco plant 751
Bisset, G. A.: Models and their lining off *931
Bisset, G. A.: Shipbuilding economies.. *871
Bisset, G. A.: The first American ironclad—the Merrimac *983
Bisset, G. A.: Ventilating systems.....720-A
Bogert, John L.: Piston displacement, velocity and acceleration for reciprocating engines *983
Boiler, arrangement of Yarrow..... *23
Boiler, Babcock & Wilcox..... *18
Boiler, Balin watertube..... *27
Boiler, Colvin watertube..... *25
Boiler, Foster marine..... *19
Boiler, Howden, standard 3-element type *28
Boiler joints, leaky..... 978
Boiler, Ludlum watertube..... *907
Boiler, Scotch, general arrangement..... *17
Boiler, Scott watertube *26
Boiler, setting for Badenhausen..... *23
Boiler, setting for Heine safety..... *19
Boiler, standard watertube..... *18
Boiler, Ward watertube..... *24
Boiler, Wickes watertube..... *27
Boilers, number of watertubes used in Emergency Fleet *18
Boilers of Emergency Fleet. Jos. J. Nelis *17
Boilers, present trend of marine engineering. H. G. Donald..... 296
Boilers, preventing corrosion in marine. E. N. Speller, E. G. Bashore, Isaac Harter, W. W. Smith..... 421
Boilers, size of Scotch used in Emergency Fleet *18
Boilers, standardization of Scotch. Henry C. E. Meyer..... *117
Bolting-up in ship construction. F. T. Warner 963
Bonner, William T.: Electrically welded ships *330
Bonner, William T.: Permissible ship welding 348
Booms, method for determining diameter of. C. A. Vincent..... *180
Boston Army Base, bridge-type hoist cranes at the..... *221
Boston dry dock, Commonwealth..... *433
Bouvier, E. R.: Novel method of launching at Puget Sound Navy Yard. E. R. Bouvier *212
Bradlee, F. B. C.: Early transatlantic steamers *114
Brent, John: Notes on connecting rods.. 116
Bridge-type hoist cranes at Boston Army Base *221
British battle cruiser Hood (photograph) *192
British battle cruiser Hood. Sir Eustace D'Eyncourt *492
British built cargo steamer Amstelland.. 811
British destroyer Wivern..... 165
British Diesel engine, new..... *29
British India Steam Navigation Company, steamer Mashobra 823
British standard ship of 3,150 tons deadweight. F. C. Coleman..... *275
Broady collapsible lifeboat..... *359
Brokerage and design, vessel, activity in. 142
Bronze sleeve welded on propeller shaft.. *339
Brooklyn Navy Yard, two unusual thermit welding repairs *350
"Bruce" dry dock, old. Paul H. MacNeil. *178
Bruhn, J.: Freeboard and strength of ships 500
Bulk cargo handling on the Atlantic coast *740
Bulkheads, buoyancy and stability of transports. William Hovgaard..... *132
Bulkheads. C. H. Peabody..... 566
Bulkheads, merits of corrugated..... 416
Buoyancy and stability of transports. William Hovgaard *60, 132
Buoyancy, formulæ for vertical position of center of. L. Pistner *908
Bureau of Navigation, shipbuilding returns 607
Busch-Sulzer Diesel engines. C. H. Peabody *752

Cable steamer Lady Denison-Pender..... *719
Cammellaird-Fullagar opposed piston oil engine *110, 327, 724
Canadian Car & Foundry Co., Ltd., 1,260-ton cargo steamer *50
Canal, development of Warrior river barge. Robert S. Thomas.....*193, 372
Canal, New York, barges for..... *401
Canal terminals, quay design for. H. McL.Harding *182
Cargo and passenger vessels, 13,500 gross tons *260
Cargo and passenger steamer Mashobra.. 823
Cargo carrier, 10,500 tons deadweight... *714
Cargo crane. Warren Travell..... *49
Cargo handling, some notes on. Lawrence B. Chapman 927
Cargo motorships vs. steamships. Charles E. Lucke 759, 837
Cargo ship Eastern Merchant. C. Ano.. *547
Cargo ship, 3,150 tons deadweight, British standard *275
Cargo ships, economical—model experiments. Alfred J. C. Robertson..*990, 1007
Cargo steamer Amstelland, British..... 811
Cargo steamer City of Brisbane..... *851
Cargo steamer E. D. Kingsley..... *50
Cargo steamer Ellewoutsdyk..... *400
Cargo steamers for Shipping Board, 12,000 tons deadweight *265
Cargo steamers, "Kil" class gunboats converted into 560
Cargo steamers, notes on dimensions. John Anderson *496
Cargo vessel Eclipse, electric propelling unit of *890
Cargoes, bulk, handling on Atlantic coast *740
Cast iron cylinders repaired by welding. H. G. Knox and James W. Owens..... *340
Cast iron planer bed welded..... *522
Chapman, Lawrence B.: Some notes on cargo handling 927
Chapman, Lawrence B.: University education in ship construction and marine transportation, abstract 1005
Chapple, Bennett: Sheet metal, salt air, and rust 656
Chicago marine exposition 791
China Arrow, tank steamer..... *884
China's waterways. A. H. Hallan..... *641
Churchill, Creighton: Standards for ship construction *198
Cilurnum, trial trip of..... 116
City of Brisbane, cargo steamer..... 851
Coal barges, 7,500-ton..... *172
Coaling equipment, steamship..... *13
CO_2 Indicator, simplified..... *686
Coker, E. G.: Effects of holes, cracks and other discontinuities in ships plating... *910
Coleman, F. C.: British standard ship of 3,150 tons deadweight *275
Coleman, F. C.: Geared turbine passenger steamer Antwerp *625
Coleman, F. C.: Oil tank steamer San Fernando *486
Colvin watertube boiler..... *25
Comanche, rebuilding the steamship..... *764
Combustion chamber, stopping leak in... *687
Comment from the shipping world. "Old Scotch" 770
Commonwealth dry dock at Boston..... *433
Comparison of cargo transportation by land and water routes. William T. Donnelly *899
Comparative tests of bilge keels and gyro stabilizer, abstract. William McEntee. 1009
Concrete cargo vessel Askelad..... *113
Concrete ship, present status of. H. C. Turner 408

Condensers, surface, abtsract. Luther D. Lovekin 1011
Congress and the merchant marine issue. Waldon Fawcett 101
Congress seeks a merchant marine policy. Waldon Fawcett 41
Connecting rods, notes on. John Brent.. 116
Construction and design of merchant ships as affected by recent war experience. J. J. Welch 813
Construction, Australian federal fleet.... *12
Construction, bolting-up in ship. F. T. Warner 963
Construction in American shipyards for private account, steel ships..... 596
Construction, progressive ship..... *426
Construction, standards for ship. Creighton Churchill *198
Conversion of "Kil" class gunboats into cargo steamers 560
Conversion of steamers to motor craft... *999
Converting Ferris-type wooden hulls into Diesel electric-driven motorships. Renwick Z. Dickie *167
Copeland, Rutus: Shipbuilding gives great impetus to oxy-acetylene industry..... *346
Corrosion in marine boilers, preventing. E. N. Speller, E. G. Bashore, Isaac Harter, W. W. Smith..... 421
Corrugated bulkheads, merits of..... 416
Cost of inefficiency at our terminals. Harwood Frost 768
Cost of operating American and British ships, relative. "Old Scotch"..... 895
Cost of ship construction: Shipbuilding economies. G. A. Bisset..... *871
Costs, superheated steam and operating. H. B. Oatley *138
Cox & Stevens, development of the firm. 142
Cox and Stevens design of 1,260-ton cargo steamer *50
Cox & Stevens: Diesel motor yacht for Vincent Astor *965
Cox & Stevens: Steel barges for New York Barge Canal *401
Cramp's floating machine shop. Louis P. Maier *428
Crandall floating dry dock, new..... *363
Crandall, J. Stuart: Wooden sectional floating dry dock 459
Crane, fitting out, largest in America.... *412
Crane, types of cargo. Warren Travell.. *49
Cranes, bridge-type, at Boston Army Base *221
Cranes, freight handling at marine terminals. A. K. West..... *599
Cristobal, steamship, rebuilt at Panama Canal shops *561
Crosshead design for heavy oil engines. W. D. Forbes..... 924
Cruisers, German submarine..... 225
Critical temperature chart..... *718
Cuba, electrically propelled passenger ship, James A. Kelley *949
Cubore, motorship 661
Cunard liner Aquitania, converted to oil burner 635
Cunard liner Tyrrhenia..... *645
Cunningham, Secor, Jr.: Economy of water transportation 483
Curtis steam engine, cross-compound, 6,000 horsepower *737
Cuyamel Fruit Co., fruit steamers Hibueras and Nicaras, built for..... 799
Cylinder, engine, welded from inside. Otis Allen Kenyon *188
Cylinder oil requirements..... 815
Cylinders, cast iron, repaired by welding. H. G. Knox and James W. Owens..... *340

Dangers of the oil room. S. D. Rickard. 15
Darien, 7,500-ton coal barge..... *172
Data, ship, the status of. C. H. Peabody. 797
Daylight illumination in the shops..... *122
De Bruijn, E.: Proposed method of placing screens on port and starboard lights *190
Delungra, Australian steamship..... *174
Denny, William: Comparative trials of "Still" and "Sulzer" engines..... *832
Des Anges, H. L.: Steamer Asbury Park in service on Pacific coast..... *713
Design and brokerage, vessel, activity in. 142
Design and construction of merchant ships as affected by recent war experience. J. J. Welch 813
Design of crosshead for heavy oil engines. W. D. Forbes..... 924
Design of main exhaust pipes for turbines. Cyrus Hankins *583
Design of quay for ocean, lake, inland river and canal terminals. H. McL. Harding *182
Design, pier, for ocean and lake terminals. H. McL. Harding..... 522
Designers and operators of our ships. John Flodin 7
Det Bergenske Dampskibsselskab, Bergen, passenger steamer Leda, built for..... *552
Destroyer Satterlee breaks speed records. 666
Destroyer Satterlee (photograph)..... 825
Destroyer Wivern, British, 1,450 tons.... 165
Destroyers and submarines built by Swan, Hunter & Wigham Richardson, Ltd.... *407
Destroyers, geared turbines for..... *479
Destroyers launched at Newport News... *372
Development in hoisting machinery, new. Warren Travell *48
Development of Warrior river barge canal. Major Robert S. Thomas.....*193, 372
Developments in high vacuum apparatus. G. L. E. Kothny *364
D'Eyncourt, Sir Eustace: British battle cruiser Hood *492
Dickie, Renwick Z.: Double-decked automobile ferry with electric drive..... *556
Dickie, Renwick Z.: Converting the Ferris type wooden hulls into motorships... *167
Diesel electric drive for double-ended ferry boats and low powered cargo vessels. S. M. Robinson..... 974
Diesel electric drive for yacht Elfay. Rex W. Wadman *161
Diesel electric drive on automobile ferry. Renwick Z. Dickie *556
Diesel electric-driven motorships, Ferris-type wooden hulls converted into. Renwick Z. Dickie..... *167
Diesel electric installation, another..... *409
Diesel engine and motorship building in Europe 322
Diesel engine, Cammell-Laird 110
Diesel engine construction in Europe.... 187
Diesel engine, design of crosshead for. W. D. Forbes..... 924
Diesel engine, Doxford..... *921
Diesel engine experimental work. C. J. Hawkes *917
Diesel engine, new British..... *29
Diesel engine, Werkspoor, in motorship San Miguel *586
Diesel-engined auxiliary schooners. C. E. Spinnler *402
Diesel engines, Busch-Sulzer. C. H. Peabody *752
Diesel engines, fuel for. C. H. Peabody. 915
Diesel engines, present-day types of. Wailand 318
Diesel engines, Relative power and size of various types of. C. J. Hawkes..... 836
Diesel motor yacht for Vincent Astor... *965
Diesel engines with solid injection..... 110
Diesel oil engine, Worthington marine... *672
Diesel, Operating a large marine plant. E. N. Percy 111
Dimensions of cargo steamers, Notes on. John Anderson *496
Dinger, H. C.: Turbo-reduction gears in practice 577
Do not kill the goose that lays the golden egg. "Old Scotch" 895
Docks at Portsmouth, Va., new graving. Harrison S. Taft *647
Docking a dry dock at Tietjen & Lang plant (photograph) *531
Docking facilities at San Francisco plant of Bethlehem Shipbuilding Corporation 751
Dock, Outfitting. Ralph L. Paddock..... *809
Dock repairing machine and rudder pintle *360
Donald, H. G.: Present trend of marine engineering 296
Donnelly-type wooden dock, 10,000 ton. *215
Donnelly, William T.: Comparison of cargo transportation by land and water routes *899
Donnelly, William T.: New development in application of electricity to marine transportation *352
Double-decked automobile ferry with electric drive. Renwick Z. Dickie.... *556
Doxford Diesel engine..... *921
Draftsmen, Courses for 9
Dromana, Australian steamship..... *10
Dry Dock, Commonwealth, at Boston.... *433
Dry dock, docking a, at Tietjen & Land yard (photograph) *531
Dry dock, Floating, Schiedam, 10,000-ton 712
Dry dock, Floating, Sixty-year-old. Paul H. MacNeil *178
Dry dock, New, Crandall floating..... *363
Dry dock, New floating, built at Mobile, 10,000-ton *215
Dry dock of Robins Dry Dock & Repair Co., 24,000-ton *796
Dry dock of Vulcan Iron Works, 2,400 tons *794
Dry dock of W. & A. Fletcher Co., 10,000 ton *795
Dry dock, railway, Largest in New England, 4,000 tons *594
Dry dock South Boston (photograph).... *64
Dry dock, Stern frame straightened in.. *998
Dry dock, wooden sectional floating. J. Stuart Crandall 459
Dry docks, Floating, Motors for operating. William H. Easton..... *794
Dry docks of Union Iron Works..... 751
Dry docks, Wooden sectional floating. Carl E. Petersen 211
Dry docking record, world's..... *176
Dumosa, Trials of Australian standard steamer *480
Dundula, Australian steamship *640
Dundula, launch of steamship, Australian *12
Dutch steamship Ellewoutsdyk..... *552
Dyson, C. W.: Problem of the hull and its screw propeller, abstract..... 1013

Education committee of National Safety Council, Report of. W. D. Keefer.... 734
Education, Courses for ship draftsmen.. 9
Education, Courses for ship's officers.... 9
Education: Evening courses in ship design and marine engineering at Brooklyn Polytechnic Institute..... 776
Education, Marine transportation course at Lehigh University 14
Education, university, in ship construction and marine transportation, abstract. Lawrence B. Chapman..... 1005
Eclipse, cargo vessel equipped with electric drive *890
Economic position of Great Britain as a shipbuilding country. Sir Alfred Yarrow 504
Economical cargo ships—Model experiments. Alfred J. C. Robertson.. *990, 1007
Economics, Shipbuilding. G. A. Bisset.. *871
Economy of water transportation. Secor Cunningham, Jr. 843
"Economy Rampant" 35
Eagle Oil Transport Company, Oil Tank steamer San Fernando. F. C. Coleman *486
Early Transportation steamers. F. B. C. Bradlee *114
Eastern Merchant, twin screw cargo ship. C. Ano *547
Eastern Telegraph Company, Ltd.: cable steamer Lady Denison-Pender *719
Easton, William H.: Electric motors for shipyard machinery *469
Easton, William H.: Motors for operating floating dry docks *794
Efficiency, Increasing stoke-hold. A. Pohlman *191, 439, 521
Electric and oxy-acetylene welding at the Bethlehem Fore River shipyard..... *65
Electric Diesel drive for automobile ferry. Renwick Z. Dickie *556
Electric Diesel drive for yacht Elfay. Rex W. Wadman *161
Electric Diesel-driven motorships. Ferris type wooden hulls converted into. Renwick Z. Dickie..... *167
Electric drive applied to a trawler..... *633
Electric drive, Diesel, for ferryboats and low powered cargo vessels. S. M. Robinson 974
Electric drive: Present trend of marine engineering. H. G. Donald..... 296
Electric drive, Propelling motors for..... *822
Electric installation, Another Diesel..... *409
Electric motors for shipyard machinery. William Harrison, James Goldsborough, William H. Easton..... 468
Electric propelling machinery of future United States capital ships..... 763
Electric propelling unit of the Eclipse... *890
Electric welder, Floating. R. Royal Roane *488
Electric welding at Submarine boat yard 400
Electric welding in marine repairs..... *716
Electric welding: Motorship Fullagar.... *724
Electric welding, Repairing defective propellers. Charles T. Perry..... *515
Electrical show, Material handling machinery at the New York..... 528
Electrically propelled passenger ship Cuba. James A. Kelley *949
Electrically welded ships. William T. Bonner *330
Electricity for package freight handling. F. T. Smith *1
Electricity, New development in application to marine transportation. William T. Donnelly *352
Elevator, Portable stacking..... *845
Elfay, yacht, fitted with Diesel electric power. Rex W. Wadman..... *161
Ellerman Lines,, Ltd.: Cargo steamer City of Brisbane 851
Ellewoutsdyk, 6-200-ton freight steamer *400, 552
Elmaren, motorship *757
Erecting and machining marine engines. William Wylde and R. M. Sherman.. *365
Emergency Fleet boilers. Jos. J. Nelis.. *17
Engine cylinder welded from inside. Otis Allen Kenyon *188
Engine-room officers, Course for..... 9
Engineering, Marine, Present-day equipment. John C. McKenzie 511
Engines, Machining and erecting marine. William Wylde and R. M. Sherman.. *305
Equipment, Present-day marine engineering. John C. McKenzie 511
Esplin, W. S.: Stopping leak in combustion chamber *687
Estimates of propeller performance from self-propelled model tests. Commander William McEntee *417
Estimating steel hull weights, Method of. G. F. S. Mann 651
Eudunda, Steamship launched at Australian Naval Dockyard *550
Europe, Motorship building in..*38, 110, 187, 448, 517, 586, 664, 834
Exhaust pipes for turbines, main, Design of. Cyrus Hankins..... *583
Exhibits at the marine exposition..... 451
Experience and practice in mechanical reduction of gears in warships. H. B. Tostevin *745, 826
Exposition, Chicago Marine..... 791
Exposition, New York marine..... 449

Tyrian, British destroyer 68

United States battleship Maryland..... 376

Vessel, most efficient type of..... 608
Visitors, reception of shop 1015

Warning 226
When is a steam pump not a steam pump 1014
World's oil supply 69

ENGINEERING SPECIALTIES

Air and steam drive boiler tube cleaners. Lagonda Mfg. Co *864

Bibbins, R. E.: New non-magnetic compass invented *234
Boiler tube cleaners, air and steam drive. Lagonda Mfg. Co. *864

Compass, non-magnetic. R. E. Bibbins.. *234
Condenser. Wheeler Condenser & Engineering Co. *234

Davit, new T-head boat. G. Torrie..... *156

Electric planer, portable. United States Electric Co. *541

Fire protection. Foamite Firefoam Co... *542
Foamite Firefoam Co.: Protecting boiler and engine rooms of oil-burning vessels 542

Gears, hydraulic variable speed. Variable Speed Gears, Ltd. *155
General Ordnance Co.: Life saving gun. *6 (Adv.)
Griscom-Russell Co.: Steam separators. *617

High power radial drilling machine. Jos. T. Ryerson & Son..... *618

Lagonda Mfg. Co.: Air and steam drive boiler tube cleaners *864
Life saving gun. General Ordnance Co. *6 (Adv.)
Lighting outfit, new marine. Westinghouse Electric & Manufacturing Co... *156

National Marine Lamp Co.: Oiler adapted to marine uses 616
National Tracing Cloth Co.: American made tracing cloth 156
Nelson, Lodge & Snyder: Reclaiming rivets *157

Oiler adapted to marine uses. National Marine Lamp Co. *616

Planer, portable electric. United States Electric Co. *541
Plastic arc welding unit. Wilson Welder & Metals Co. *234

Radial drilling machine, high power. Joseph T. Ryerson & Son..... *618
Rivet and bolt sorting machine. Nelson, Lodge & Snyder *157
Ryerson, Jos. T.: High power radial drilling machine *618

Separators, steam, "Stratton." Griscom-Russell Co. *617

Torrie, G.: New T-head boat davit..... *156
Tracing cloth, American made. National Tracing Cloth Co. 156

United States Electric Co.: Portable electric planer *541

Variable Speed Gears, Ltd.: Hydraulic variable speed gears *155

Welding unit, plastic arc. Wilson Welder & Metals Co. *234
Westinghouse Electric & Manufacturing Co.: New marine lighting outfit..... *156
Wheeler Condenser & Engineering Co.: New type of condenser..... *234
Wilson Welder & Metals Co.: Plastic arc welding unit *234

PARAGRAPHS

American yard, quick delivery gains orders for 430
Annual meeting, Institution of Naval Architects 50
Association, Atlantic Coast Shipbuilders, meeting of 50
Atlantic City, launch of 593
Atlantic Coast Shipbuilding Association, meeting of 50

Blue print protector, practical 100
Bureau of Navigation, report for month of September 896

Canada, shipbuilding in 394
Contracts for American yard, quick delivery gains 430
Correction: 100-foot harbor tug Energy. 503
Crude oil burning marine engine..... 436

Dry dock, Crandall, Globe repair yard... 329

East Asiatic Company orders seven motor ships of 13,600 tons deadweight... 371
Engines for French government..... 264
Exposition, Philadelphia Marine 909

French government, engines for..... 264

German submarine testing tank allocated to Great Britain *102
Glenn line, new motorship added to..... 371
Globe repair yard to have Crandall dry dock 329

How an engineer got rich..... 758

Institution of Naval Architects, annual meeting of 50

Japan's naval programme 666

Launch of Atlantic City..... 593
Launch of S. S. Boswell..... 661

Marine exposition, Philadelphia..... 909
Meeting of Atlantic Coast Shipbuilders' Association 50
Motive power generated in the world, prime 73
Motorship added to the Glen line..... 371
Motorships, East Asiatic Company orders seven of 13,600 tons deadweight..... 371

Naval Architects, annual meeting of Institution of 50
Naval programme, Japan 666

Oil burning engine, crude..... 436

Packing, valve rod and piston..... 171
Personal 156, 697, 779, 860, 940, 1019
Philippine Islands, shipyards to..... 568
Piston and valve rod packing..... 171
Prime motive power generated in the world 73

Shipbuilders, meeting of Atlantic Coast.. 50
Shipbuilding in Canada 394
Shipbuilding report, June 671
Shipbuilding returns, July 771
Shipments to the Philippine Islands..... 568
Steamship Boswell, launch of..... 661
Submarine testing tank, German, allocated to Great Britain *103
Superheated steam and reciprocating engines 756

Testing tank, German submarine, allocated to Great Britain *102

Valve rod packing, and piston..... 171

QUESTIONS AND ANSWERS

Anchor-tripping gear, chain for *695
Anchors, stern 858
Approximate freeboard 696

Batten, scaling 461
Boiler feed water, de-æration of 151
Boiler tubes, corrosion of 537
Boot topping and bottom, area of ship, calculation of 939
Bottom and boot topping area of ship, calculation of 939

Calculation of bottom and boot-topping area of ship 939
Chain for anchor-tripping gear *695
Computations, preliminary, for marine steam engine 231
Concrete vessels, testing a 381
Condenser, testing a 537
Copper piping, thickness of 381
Corrosion of boiler tubes 537

Davit, size of lifeboat 777
De-æration of boiler feed water 151
Design, elementary, propeller 537
Design of jack screw and pillow block *461
Displacement and waterline area, relation between *696
Draft of a ship, light and load 938
Drawing load lines on vessel in dry dock *938
Dry-docking, repairs at 778

Eccentric, valve movement by shifting 537
Effect of leaky piston on indicator card *695
Elementary propeller design 537
Engine, preliminary computations for marine steam 231
Estimatng machinery, weights, formula for 73
Evaporation of lubricating oil 859

Feathering paddle wheels, substituting radial for *613
Feed water, de-æration of boiler 151
Feeding boiler by injector 859
Formula, approximate, for estimating machinery weights 73
Freeboard, approximate 696
Fuel oil piping, rules for 858

Gaskets and packing 939

Horsepower of internal combustion engines 1018

Indicator card, effect of leaky piston on *695
Injector, feeding boiler by a 859
Instructions, written versus verbal 537
Internal combustion engine, horsepower of *1018

Jack screw and pillow block, design of *461

Large concrete vessels 381
Leaky piston, effect of an indicator card *695
Lifeboat davit, size of *777
Light and load draft of a ship 938
Load lines, drawing on vessel in dry dock *938
Locating shafting line *613
Lock nuts *151
Lubrication oil, evaporation of 859

Machinery weights, approximate formula for estimating 73
Masts, schooner, standing rigging for *777
Measuring pitch of a propeller 537
Model experiments in running stream of water 858

Nuts, lock *151

Oil piping, fuel, rules for 858

Packing and gaskets 939
Packing material 461
Paddle wheels, substitution of radial for feathering *613
Pillow block and jack screw, design of *461
Piping, fuel oil, rules for 858
Piping, thickness of copper 381
Piston, effect of leaky, on indicator card *695
Pitch of propeller 1019
Pitch of propeller, measuring 537
Preliminary computations for marine steam engine 231
Pressures at various compressions of a spring 859
Propeller design, elementary 537
Propeller, measuring pitch of a 537
Propeller, pitch of 1019
Propeller, reversible 1019

Radial paddle wheels substituted for feathering *613
Raked smokestacks 695
Relation between displacement and waterline area *696
Repairs at dry-docking 778
Reversible propeller 1019
Rigging, standing, for schooner masts *777
Ring stiffening, spacing of rivets in *1018
Rivets in stiffening ring spaced to clear studs *1018
Rules for fuel oil piping 858

Safety valve problem *231
Scaling batten 461
Schooner masts, standing rigging for *777
Shafting line, locating *613
Shifting the eccentric valve movement by 537
Size of lifeboat davit *777
Smokestacks, raked 695
Spring, pressures at various compressions of a 859
Standing rigging for schooner masts *777
Steam engine, preliminary computations for marine 231
Stern anchors 858
Stiffening ring, spacing of rivets in *1018
Substitution of radial for feathering paddle wheels *613

Testing a condenser 537
Thickness of copper piping 381
Tubes, corrosion of boiler 537

Valve movement by shifting the eccentric 537
Valve problem, Safety *231
Verbal versus written instructions 537

Waterline area and displacement, relation between *696
Weights, machinery, formula for estimating 73
Written versus verbal instructions 537
